

Distribution, 3rd Party Processing and Warehousing

Garments On Hangers

The fashion industry is unique and demanding. Apparel Distribution Services, to adequately service customers, must be robust, varied and emphasize the word service, both as a commodity and a philosophy. Successful apparel warehousing requires extensive value added service options.

There is one constant. Deliver the right product at the right time. The unique demands of shipping garments through our specialized transportation choices is our business.

Our mission is clear. Performance must be above and beyond client expectations and our track record and client list supports that statement of performance.

Dynamic operates some of the largest warehouse facilities in the nation designed and fitted for all types of apparel, flat, folded garments, and garments on hangers. Our warehouses are multi-tiered and fully speed-rail fitted for rapid movement, staging area facilitation and tail loading and co-loading of freight.

G-O-H are SKU verified, sorted by style, size and color and are subject to very tight inventory locator controls. Hanging garment deliveries arrive "store ready";
Apparel

Carton shipments are subject to the same stringent inventory and tracking procedures as Garments on Hangers. SKU verification, scanning, re-labeling, re-packing, and bar coding is provided as required by our customers.
Value Added Services

In order to fully service the apparel industry's unique logistics requirements we go beyond the processes of transport, delivery, consolidation, warehousing and the other myriad aspects of shipping from one or several locations to others. It requires value added services which ARE specific to fashion such as:

- Re-ticketing and Re-bagging
- Steaming, Pressing and Cleaning
- Repair and Restoration
- Security Attachments
- Hanger Changes
- Sorting by Style, Size and Color
- SKU Verification and Distribution
- Customized Services
- Complete Pick and Pack Service
- Compliance Labeling (Bar Coding)
